Data Science Education Program
Connector Assistants
Fall 2019 Application

Connector Assistants (CAs) help instructors of Data Science Connector courses to deliver and teach material. Connector courses are usually taken simultaneously with Data 8 and often introduce new concepts and tools. Being a connector assistant is a fantastic way of getting involved with the new Division of Data Science and Information while networking with peers and professors in the field of data science.

Responsibilities
- Administer and assist with labs during class
- Hold weekly office hours
- Curriculum development (if deemed appropriate and feasible by the instructor, the Division, and connector assistant)

Position Details
- This position is unpaid, with opportunities for advancement to paid leadership positions
- Expected time commitment of 6 hours per week
- All CAs have the option to receive 2 academic units of credit for development work

Qualifications
Students of all backgrounds and skill levels are encouraged to apply. Recruiting preference is given to students with:
- Passion for shaping inclusive undergraduate learning at Berkeley
- Teaching and/or leadership experience
- Completion of Data 8 or equivalent (e.g. CS 61a and Stat 20)

Apply here. If you have questions about the application, please email ds-curriculum@berkeley.edu.
