Data Science Education Program
Connector Assistants
Spring 2020 Application

Connector Assistants (CAs) will play a critical role in improving and expanding the data science curriculum at Berkeley. They will work closely with an instructor of Data Science Connector courses to provide students a fantastic opportunity to explore applications of data science in subjects such as biology and business. CAs will not only help students during lab and office hours, but also advise instructors on developing their course.

Responsibilities
- Advise instructors regarding course content
- Administer and assist with labs during class
- Hold weekly office hours
- Curriculum development (if deemed appropriate and feasible by the instructor, the Division, and connector assistant)

Position Details
- This position is unpaid, with opportunities for advancement to paid leadership positions
- Expected time commitment of 6 hours per week
- Expected to attend Data Science Instructional Support Seminar to practice teaching skills
  - 1.5 hours of class per week, for the first 6-7 weeks of the semester
- All CAs have the option to receive 1 or 2 academic units of credit for development work

Qualifications
Students of all backgrounds and skill levels are encouraged to apply. Recruiting preference is given to students with:

- Completion of Data 8 or equivalent (e.g. CS 61a and Stat 20)
- Passion for teaching shaping inclusive undergraduate learning at Berkeley
- Teaching and/or leadership experience

Apply here. If you have questions about the application, please email ds-curriculum@berkeley.edu.
