Data Science Education Program
Human Contexts and Ethics Team
Spring 2020 Application

The Human Contexts and Ethics (HCE) Team is looking to fill multiple positions, both technical and non-technical, such as the Curriculum Developers, Communications Support member, Assessment Support member, and the Public Interest Technology Liaison for Spring 2020. The HCE team members work on integrating critical thinking about ethical issues in relation to technology into the Berkeley data science program and community. They develop case studies and datasets for teaching, write and edit for their Medium blog, organize events, and do collaborative outreach on campus and online.

General Positions Details
- Minimum 6 - 8 hours weekly commitment
- Must have a deep interest in ethics surrounding issues in technology and passion for change in the educational structure of how we teach ethics in technical classrooms
